**IT'S NOT YOU: Identifying and Healing from Narcissistic People**  
Self-Help/Self-Esteem | The Open Field | Published in 2024

***\*Instant New York Times Bestseller\****  
***\*Over 250,000 copies sold domestically\****

It's not always easy to tell when you're dealing with a narcissistic person, and unfortunately, no matter how much you try to appease them, they will not stop manipulating and invalidating you. The first step toward healing from their toxic influence—and to protect yourself from future harm—is to accept that you are not to blame for their behavior. Drawing on more than two decades of studying the landscape of narcissism and working with survivors, Dr. Ramani Durvasula explores how narcissists hijack our well-being and offers a healing path forward. Thriving after, or even during, a narcissistic relationship can be challenging, but **IT'S NOT YOU** shows you that it is possible.

**Dr. Ramani Durvasula** is a licensed clinical psychologist, Professor Emerita of Psychology at California State University Los Angeles, and the Founder and CEO of LUNA Education, Training & Consulting. She discusses narcissism on her popular [YouTube channel](#), on social media as [@DoctorRamani](#), her popular online program on healing from narcissistic abuse, and as the host of the podcast *Navigating Narcissism with Dr. Ramani*.

Psychology | **Dutton Hardcover** | Published in 2021

***\*Instant New York Times and Los Angeles Times Bestseller\****

***\*Over 540,000 copies sold domestically\****

In DOPAMINE NATION, psychiatrist and Stanford University professor Dr. Anna Lembke, MD, reveals how the world we live in now has hijacked a fundamental mechanism in our brains—the desire for pleasure—and rendered everyone in danger of addiction to food, sex, texting, vaping, drinking, narcotics, gaming, and so many more immediately available dopamine-triggering goods. Too much pleasure has inevitably led to too much pain. We need to re-balance, and with fascinating case histories of men and women, young and old, this book shows us how.

[Dr. Anna Lembke](#) is the Medical Director of Stanford University’s Addiction Medicine, Program Director for the Stanford Addiction Medicine Fellowship and Chief of the Stanford Addiction Medicine Dual Diagnosis Clinic. She is the recipient of numerous awards for outstanding research in mental illness, for excellence in teaching and for clinical innovation in treatment. A clinician scholar, she has published over 100 peer-reviewed papers, book chapters, and commentaries in prestigious outlets such as *The New England Journal of Medicine* and *JAMA*. She sits on the board of several state and national addiction-focused organizations, has testified before various committees in the United States House of Representatives and Senate, keeps an active speaking calendar, and maintains a thriving clinical practice.

**“Endlessly stimulating, a marvelous overview, and one which only a deeply musical neuroscientist could give.... An important book.”**

—Oliver Sacks, M.D.

In this *New York Times*-bestselling groundbreaking union of art and science, rocker-turned-neuroscientist Daniel J. Levitin explores the connection between music—its performance, its composition, how we listen to it, and why we enjoy it—and the human brain. **PSYCHO-CYBERNETICS: Updated and Expanded**

Self-Help/Happiness | TarcherPerigee | First published in 1960; revised in 1972, 1983, 1992, 1996, 2002, and 2015

***\*Over 30 million copies sold domestically\****

In the latest edition of the perennial bestseller, the original text has been annotated and amplified to make Dr. Maxwell Maltz's message even more relevant for the contemporary reader. Maltz was the first researcher and author to explain how the self-image has complete control over an individual's ability to achieve any goal. He developed techniques for improving and managing self-image, which have informed and inspired countless motivational gurus, sports psychologists, and self-help practitioners for decades. The teachings of PSYCHO-CYBERNETICS are timeless because they are based on solid science and provide a prescription for thinking and acting that lead to quantifiable results.

**Dr. Maxwell Maltz** received his doctorate in medicine from the College of Physicians and Surgeons of Columbia University in 1923. After a successful career in plastic surgery in Europe, he became increasingly fascinated by the number of patients who came to him requesting surgery only to find that their unhappiness and insecurities remained even after surgery. In 1920, after nearly a decade of counseling hundreds of patients, extensive research, and testing his theory of "success conditioning," he published his findings in the first edition of PSYCHO-CYBERNETICS.

**Matt Furey**, president of the [Psycho-Cybernetics Foundation](#), has committed himself to preserving and extending the legacy of Maltz's work. Furey headlines sold-out seminars and coaches hundreds of men and women in his highly successful MasterMind/Joint Venture Connection, as well as the Psycho-Cybernetics Coaching Program.

**IT DIDN'T START WITH YOU: How Inherited Family Trauma Shapes Who We Are and How to End the Cycle**

Psychology/Mental Health | **Penguin Life** | Published in 2016

**\*International Bestseller\***

**\*Almost 900,000 copies sold domestically\***

*Depression. Anxiety. Chronic Pain. Phobias. Obsessive thoughts.* The evidence is compelling: the roots of these difficulties may not reside in our immediate life experience or in chemical imbalances in our brains—but in the lives of our parents, grandparents, and even great-grandparents. **IT DIDN'T START WITH YOU** builds on the work of leading experts in post-traumatic stress to show that even if

the person who suffered the original trauma has died, memory and feelings can live on, often hidden, encoded in everything from gene expression to everyday language, and they play a far greater role in our emotional and physical health than has ever before been understood. As a pioneer in the field of inherited family trauma, Mark Wolynn offers a pragmatic and prescriptive guide to his method, the Core Language Approach to resolve longstanding difficulties that in many cases, traditional therapy, drugs, or other interventions have not had the capacity to touch.

[Mark Wolynn](#) is a leading expert on inherited family trauma. He is the winner of the 2016 Silver Nautilus Award in Psychology. As the director of The Family Constellation Institute in San Francisco, he has trained thousands of clinicians and treated thousands more patients struggling with depression, anxiety, panic disorder, obsessive thoughts, self-injury, chronic pain, and illness. A sought-after lecturer, he leads workshops at hospitals, clinics, conferences, and teaching centers around the world.

**RAISING CRITICAL THINKERS: A Parent's Guide to Growing Wise Kids in the Digital Age**  
Parenting/Education | TarcherPerigee | Published in 2022

Education is not solely about acquiring information and skills across subject areas, but also about understanding how and why we believe what we do. At a time when online media has created a virtual firehose of information and opinions, parents and teachers worry how students will interpret what they read and see. In RAISING CRITICAL THINKERS, Julie Bogart draws on more than twenty years' experience homeschooling and developing curricula to offer practical tools to help children at every stage of development to grow in their ability to explore the world around them, examine how their loyalties and biases affect their beliefs, and generate fresh insight rather than simply recycling what they've been taught.

[Julie Bogart](#) is the creator of the award-winning, innovative [Brave Writer](#) program, teaching writing and language arts to thousands of families every year. She homeschooled her five now-grown children for seventeen years and is the founder of [Brave Learner Home](#), which supports homeschooling parents through coaching and teaching. She has taught as an adjunct professor of theology at Xavier University and is also the author of *The Brave Learner*.

When she arrives at the famed Barbizon Hotel in 1952, Darby is everything her modeling agency hall mates aren't: plain, self-conscious, homesick, and utterly convinced she doesn't belong. Yet when Darby befriends Esme, a Barbizon maid, she's introduced to an entirely new side of New York City. Over half a century later, the Barbizon's a condo and most of its long-ago guests are forgotten, but rumors of Darby's involvement in a deadly skirmish with a hotel maid back in 1952 haunt the halls of the building. Darby's upstairs neighbor, a journalist named Rose, just can't resist looking into it, but as her obsession deepens, the ethics of Rose's investigation become increasingly murky, and neither woman will remain unchanged when the shocking truth is finally revealed.

Charlotte was an anthropology student in Egypt in 1936 when an unbearable tragedy struck. Now in 1978, she's leading a quiet life as the associate curator of the Met's celebrated Department of Egyptian Art and researching Hathorkare, a rare female pharaoh dismissed by most other Egyptologists as unimportant. But on the night of the famous Met Gala, one of the museum's most valuable artifacts goes missing so she teams up with Annie, a nineteen-year-old working for *Vague* who helped plan the event. In their search for the antiquity, the two head to the one place Charlotte swore she'd never return: Egypt. But if they have any hope of finding the artifact, Charlotte will need to confront the demons of her past—which may lead everyone directly into danger.
