HIGH FUNCTIONING

The New Face of Depression--and How to Reclaim Our Joy

Dr. Judith Joseph

Little, Brown Spark, Spring 2025

Dr. Judith Joseph explores one of the most under researched mental health crises of our time, revealing how to break from High Functioning Depression (HFD) and reclaim the joy in our lives.

Many of us have experienced periods in our lives when something felt “off”: when we struggled to find joy in happy moments, felt pessimistic about the future, and took little pleasure in things we used to enjoy. On the surface, everything might have seemed fine – we were motivated and productive at work, pulling our weight at home, and conducting a normal social life – but behind that façade we were barely surviving, and certainly not thriving.

High-Functioning Depression impacts the lives of millions, yet has been under-researched, overlooked, and completely misunderstood. Because it doesn't conform to the image that comes to mind when we think of depression - someone who is deeply sad and listless and finds it hard to get out of bed in the morning - people with HFD often have no idea why they are suffering, or what to do about it. Until now.

As the founder and chief investigator at Manhattan Behavioral Medicine, New York City's premier clinical research site, a clinical assistant professor at NYU Langone Medical Center, chairwoman of the Women in Medicine Board at Columbia University's Vagelos College of Physicians and Surgeons, and “social media's favorite psychiatrist,” Dr. Judith Joseph is poised to become THE expert voice on this urgent and unexplored topic. In *GOLDEN*, she draws on original research, client stories, and personal experience with HFD to transform the way we see this condition, and provide the awareness, validation, and accessible, research-backed advice (in the form of her “Five V's Framework) we need to break the cycle.

DISBELIEF

The Origins of Atheism in a Religious Species

Will M. Gervais PH.D

Rowan & Littlefield, Fall 2024

Does God exist? This straightforward question has spawned endless debate, ranging from apologists' supposed proofs of God's existence to New Atheist manifestos declaring belief in God a harmful delusion. In *Disbelief*, Will M. Gervais, Ph.D., a global leader in the psychological study of atheism, shows that the ubiquity of religious belief and the peculiarities of atheism are connected pieces in the puzzle of human nature.

It's undeniable that religion is a core tenet of human nature. It is also true that our overwhelmingly religious species is also as atheistic as it's ever been. Yet, no scientific understanding of religion is complete without accounting for those who actively do not believe. In this refreshing and revelatory book, Gervais argues that religion is not an evolutionary puzzle so much as two evolutionary puzzles that can only be solved together. First is the Puzzle of Faith: the puzzle of how *Homo sapiens* – and *Homo sapiens* alone – came to be a religious species. Second is the Puzzle of Atheism: how disbelief in gods can exist within our uniquely religious species. The result is a radically cohesive theory of both faith and atheism, showing how we became a uniquely religious species, and why many are now abandoning their belief..

LIT

Use Nature's Playbook to Energize Your Brain, Spark Energy, Ideas, and Ignite Action

Jeff Karp with Teresa Barker

William Morrow, April 2024

"Don't we all want to tap our innermost talents of creativity, the full power of our good brains? I know I do. I am in a perpetual search to spark every fiber of my potential. And here, with LIT, I have discovered myriad tools and concepts to guide me. Drawing on the grandeur of Mother Nature, the discipline of repetition, the courage to not only accept but seek failure, LIT is a blueprint for a richer, deeper life." —**Diana Nyad**

"Jeff Karp's much-needed book LIT provides a spark and helps us light ourselves up from within — while lighting up the world around us, bringing joy and creativity to all aspects of our lives." —**Arianna Huffington**, Founder and CEO, Thrive Global

In the age of convenience, information overload, and endless exposure to stimuli, it's easy to trudge through the motions of life, pressured, distracted, and seeking instant gratification. When this way of living becomes the norm, it can immobilize us, making it feel impossible to reclaim control of our lives with intention and enthusiasm.

In LIT, Harvard Medical School professor, Mass General Brigham and MIT researcher, and renowned bioinspirationalist Jeff Karp, PhD, teaches us to harness the vital wisdom and power of nature to place us into a lit state. Lit is a life magnifier, a heightened state of awareness that drives curiosity, connection, and energy. In short: being lit takes us off autopilot and helps us stay alert, present, and fully engaged.

Diagnosed with learning differences and ADHD at a young age, Karp persisted through nearly insurmountable struggles. After discovering that he could think about thinking at age eight, he became his own science experiment, tapping into the lit state through trial and error to achieve hyper-awareness and explore his curiosity, creativity, and connection to nature. Decades later, as a biotech innovator, husband, and father, lit continues to encourage opportunities for innovation in his professional and personal lives.

He has honed those methods into a diverse toolkit that he calls Life Ignition Tools (LIT), which help us:

- Break out of habitual thinking to discover our own imaginative power.
- Stimulate creativity and excitement at work.
- Integrate our spiritual and personal lives to repair and deepen our relationships.
- Navigate multiple streams of sensory input and manage information overload.

Lit has inspired Dr. Karp's innovative medical discoveries such as surgical glue inspired by slugs, a diagnostic for cancer based on the tentacles of jellyfish, and surgical staples based on the quills of a porcupine, but you don't have to be a scientist to live lit. Anyone can use these principles to redirect their lives with energy, focus, creativity, and motivation to create the lives they truly want to lead.

THE NORTHWOMEN

Untold Stories From the Other Half of the Viking World

Heather Pringle

National Geographic, September 2024

****NEW****

Brimming with the latest archaeological research, this provocative narrative is the true story of some of the most alluring and little-known figures in the Viking world: its women.

Until Scandinavia converted to Christianity and came under the rule of powerful kings, the Vikings were a dominant force in the medieval world. Outfitted with wind-powered sailing ships, they left their mark, spreading terror across Europe, sacking cities, deposing kings, and ransacking entire economies. But not all disruption is harmful. The Vikings also constructed cities, founded one of the world's earliest legislative assemblies, became the first Europeans to set foot in North America, and enriched the English language. After the Vikings, the world was never the same.

But as much as we know about this celebrated culture, there is a large missing piece: its women. All but ignored by contemporary European writers, the Northwomen were thought to have played little part in the famous feats of the Vikings, instead remaining at home as wives, mothers and homemakers.

In this enthralling narrative, renowned science journalist Heather Pringle turns those assumptions on their head, using the latest archaeological research and historical findings to reveal these women as formidable figures who served as sorceresses, warriors, traders, artisans, explorers, settlers, landowners and power brokers, both at home and abroad.

CARDIAC COWBOYS

The Heroic Invention of Heart Surgery

Gerald Imber

Post Hill Press, February 2024

****NEW****

***Cardiac Cowboys* is the dramatic story of five deeply flawed geniuses who together—and in competition with each other—invented open-heart surgery against all conventional medical wisdom and saved millions of lives.**

A decade after World War II, there was still no such thing as open-heart surgery, and yet half a million Americans were dying from heart disease every year. One in a hundred children would suffer and die from congenital heart disease as well, and doctors did little other than predict their deaths. After the first daring operation in 1954 and through the next three decades, five heroic surgeons braved the scorn of their peers, withstood fierce desperation, and faced possible death in order to devise procedures that would save overwhelming numbers of those doomed children and provide hope for a new life to all manner of heart-failing individuals. Devising and mastering heart transplants and bypass surgery, they invented artificial heart valves, the lifesaving pacemaker, and worked toward the holy grail of an artificial heart as their private and professional lives imploded. The story of the Cardiac Cowboys, their outsized personalities, and often self-destructive behavior is a saga more thrilling and exhilarating than fiction.

THE BOMB DOCTOR

A Scientist's Story of Bombers, Beakers and Bloodhounds

Kirk Yeager and Selene Yeager

Regalo Press, May 2024

A rare peek behind the curtain into boots-on-the-ground, in-the-lab scientific bomb forensics—told with humanity, heart, and even a bit of humor.

This is not CSI. What you encounter as a true bomb detective—or “Bomb Doctor,” as some in the FBI call me—are fields of twisted metal containing soot-covered fragments intermingled with human remains. You have carnage and chaos. As you wade into that sea of wailing sirens and screaming survivors awash with the stench of diesel fuel and decaying bodies, your job is to ferret out forensic clues in a type of macabre scavenger hunt to ultimately reconstruct the scene and the explosive device and determine what happened and what the bomb looked like before it was torn asunder.

None of this happens overnight. Nor does it happen in a timeframe that can be neatly packaged in an hour-long made-for-TV drama. The scavenger hunt can take months—or, in the case of the infamous Collar Bomber, seven painstaking years. The work is worth every second and every horrific image that etches itself into your brain because it helps prevent new horrors. Not all, obviously. We are not superheroes. But unlike shooters, who often just “snap” or seem to act out in random ways, bombers almost always have a story—one that follows an arc.

In *The Bomb Doctor*, Yeager explains that arc, explodes myths, reconstructs reality, and builds an understanding of the reason and means behind the mayhem, as well as pulls back the curtain on the investigative process that brings bombers to justice.

Dr. Kirk Yeager received his B.S. in Chemistry from Lafayette College and PhD in Inorganic Chemistry from Cornell University. He worked as a research scientist and became Associate Director of R&D at the Energetic Materials Research and Testing Center (EMRTC) in Socorro, New Mexico. For 10 years he served as a Physical Scientist/Forensic Examiner for the FBI Laboratory's Explosives Unit, where he deployed as a bombing crime scene investigator to dozens of countries. Currently, Dr. Yeager is the FBI's Chief Explosives Scientist. Dr. Yeager has nearly 30 years of experience with improvised explosives and IEDs. Over the course of his colorful career he has served as a subject matter expert for the National Academies of Sciences, worked as a technical adviser for *Mythbusters*, and been the subject of a feature article in *Popular Mechanics*. He is an avid geocacher and holds the rank of Black Belt in Dan Zan Ryu Ju-Jitsu. His academic prowess is surpassed only by his charm and humility.

Selene Yeager is Kirk Yeager's sister. At least that's how high school teachers referred to her—right after Ron Yeager's daughter—until everyone realized that she was a little bit like them, and a whole lot of something different. Terrible at chemistry, good at sneaking out of the house, and single minded in the pursuit of riding a bike and expressing herself in the written word. The former has taken her around the world. The latter has helped her build a career in storytelling and journalism and as author, co-author, and contributor to nearly 30 books, a nomination for a National Magazine Award for excellence in service journalism, and the great honor of bringing her brother's work to the world through this book.

NATIONAL GEOGRAPHIC

THE CAVE

A Secret Underground Hospital and One Woman's Story of Survival in Syria

Amani Ballour, M.D. with Rania Abouzeid

National Geographic, March 2024

Based on the Oscar-nominated film

"This plainspoken yet vivid testimony from the front lines of a humanitarian crisis is difficult to shake." –*Publishers Weekly*, starred review

Written in the tradition of *I Am Malala* and based on the Oscar-nominated documentary *The Cave*, this searing memoir tells the inspiring story of a young doctor and activist who ran an underground hospital in Damascus, illuminating and humanizing the enduring crisis in Syria.

Simply put, there is no one in Syria with a story like Dr. Amani Ballour. The only woman to have ever run a wartime hospital, she saved her peers from the atrocities of war while contending with the patriarchal conservatism around her.

Growing up in Assad's Syria, Dr. Ballour knew she wanted to be more than a housewife, even as her siblings were married off in their teens. As the revolution unfolded, she volunteered at a local clinic and was immediately thrown into the deep end of emergency medicine. Here, she found her voice and the courage to continue.

Among the facets of this powerful tale: Becoming a hospital director. Shielding children from a horrific sarin attack. Losing colleagues. Starvation during the hospital siege. Attempting to employ more women in the hospital and challenging the patriarchy. Abandoning the hospital. Becoming a refugee. Living with trauma. Moving forward.

Amani Ballour is a role model and a game changer who, like Malala Yousafzai, will be remembered as one of history's great heroines. She is an incredibly brave, passionately committed young humanitarian who, though deeply wounded by her experiences, is not content to quietly deal with her own trauma. Instead, Ballour is determined to seek justice and to do her utmost to ensure that others will not have to face the horrors that she survived.

Amani Ballour graduated from the University of Damascus in 2012. She began her pediatrics specialization before abandoning her studies to help the people of her hometown, under attack from the Assad regime, in an underground medical facility known as The Cave. In 2018, as Assad's forces closed in, Ballour was forcibly displaced to northern Syria before settling in the United States with her husband in 2021. She is the recipient of the Council of Europe's prestigious Raoul Wallenberg Prize. She lives in Patterson, New Jersey.

Rania Abouzeid is a multi-award-winning Lebanese-Australian journalist who has reported from across the Middle East for some two decades. Her work has appeared in *The New Yorker*, *Time* magazine, *National Geographic*, and other outlets. She lives in Beirut, Lebanon.

TELL ME WHEN IT'S OVER

Deciphering Covid Myths and Controversies in a Post-Pandemic World

Paul A. Offit, M.D.

National Geographic, February 2024

“Offit is a good storyteller, and he has some terrific stories to tell.” –*The New York Times Book Review*

“Dr. Offit, a pediatrician, a vaccine expert and prolific author, is exquisitely attuned to the burden shouldered by the earliest recipients of medical treatments and technologies.” –*The Wall Street Journal*

From one of the world’s premier vaccine experts, this essential guide will answer the key questions about the COVID-19 pandemic: what happened, where we are now, and what happens next, as well as how we can best protect ourselves, our children, and the most vulnerable among us.

Today, as the covid-19 pandemic evolves, people have started to throw away their masks, gather in large indoor settings, and return to normal life. But the fact remains that 9 million Americans are immune-compromised, and at least 60 million have refused to be vaccinated. Moreover, while COVID vaccines are remarkable at preventing severe disease, they aren’t very good at preventing mild or asymptomatic infections.

This means SARS-CoV-2 isn’t going to disappear anytime soon. The virus will continue to circulate throughout the United States and the world, mutate, generate contagious variants, and cause harm for years if not decades. So how will we live with COVID now?

Dr. Paul Offit will help weary readers address that crucial question. As a member of the FDA Vaccine Advisory Committee and a former member of the Advisory Committee for Immunization Practices to the CDC, Offit has been in the room for the creation of policies that have affected hundreds of millions of people. In this comprehensive guide, he will show us where we’ve been, where we are, and where we’re heading, addressing fundamental issues like boosters, masking, vaccine mandates, immunity induced by natural infection, and what it means to be fully vaccinated. He will also zero in on how to treat long COVID, whether COVID vaccines should be given every year, and when to use antivirals.

Comprehensive and pragmatic, TELL ME WHEN IT’S OVER is the ANTI-anti-vax book—and will be a beacon for anyone (which is to say, everyone) who is interested in finding new solutions to the new normal.

David Quammen

National Geographic, May 2023

"David Quammen is the conservationist's author. Not only can he explain complex scientific issues using great storytelling that makes them stick, but he also has the ability to transmit the passion involved in exploration, research, and conservation." — **Enric Sala**, *National Geographic* Explorer in Residence and founding director of Pristine Seas

"Distinctively combining the splendor of nature, conservation biology, and exciting adventures, Quammen's tales read as though Indiana Jones joined forces with scientist-ecologist Edward O. Wilson." — **Booklist**

In this inspiring collection of essays, acclaimed author David Quammen journeys to places where civilization meets raw nature and explores the challenge of balancing the needs of both.

For more than two decades, award-winning science and nature writer David Quammen has traveled to Earth's most far-flung and fragile destinations, sending back field notes from places caught in the tension between humans and the wild. This illuminating book features 20 of those assignments: elegantly written narratives, originally published in *National Geographic* magazine and updated for today, telling colorful and impassioned stories from some of the planet's wildest locales.

Quammen shares encounters with African elephants, chimpanzees, and gorillas (and their saviors, including Jane Goodall); the salmon of northeastern Russia and the people whose livelihood depends on them; the lions of Kenya and the villagers whose homes border on parks created to preserve the species; and the champions of rewilding efforts in southernmost South America, designed to rescue iconic species including jaguars and macaws. With a new introduction, afterword, and notes framing each story, Quammen reminds us of the essential role played by wild nature at the heart of the planet.

LOVING MY LYING, DYING, CHEATING HUSBAND

A Memoir

Kerstin Pilz

Affirm Press (Australia), March 2024

Kerstin is childless by choice and married to a job that doesn't love her back when Gianni, a charming Italian forensic psychiatrist, turns her life into a champagne-coloured fairy tale. Within months, they are married and travelling the world together. When Gianni is diagnosed with cancer, the new marriage is put to the test. Kerstin becomes her husband's dedicated carer, but when she discovers that Gianni has been cheating on her all through their relationship, she is faced with a difficult choice: walk away, or continue to care for the man who betrayed her? She turns first to wine, then to therapy, ending up in a Buddhist monastery, where she realises that finding a new way of loving her lying, dying husband offers a chance to avoid liver damage and to grow from her pain rather than be crushed by it.

Written with wisdom, humour, and unfailing kindness, *Loving My Lying, Dying, Cheating Husband* is a life-affirming tale of one woman's search for better ways to love, grieve and forgive.

Walking with Our Children in the Age of Climate Collapse

Lydia Wylie-Kellermann

Broadleaf Books, July 2024

Addressing parenting fears and anxieties concerning climate change, fellow parent and activist Lydia Wylie-Kellermann offers this beautiful and lyrical invitation, rooted in nature and spiritual writing, to shift our perspective toward joy and hope.

What does it mean to be a parent in the age of climate change?

We are living in an era of climate collapse. We feel it in small ways: when the snow falls less or the cherry blossoms bloom too early. And in large ways: when our streets flood and entire towns burn to the ground. Climate anxiety touches nearly everything we do, but perhaps nothing so intimately as our parenting. It leaves an impossible task for those of us raising children. What do we tell our kids when the air quality is too bad to go ride bikes? What skills will they need if systems collapse? And what do we do with the fear, grief, and anger *we* feel as parents?

Parent, activist, and writer Lydia Wylie-Kellermann wrestles with these questions and dares to argue that while the future remains unknown, there is still awe and wonder, love and struggle, gratitude and overwhelming joy to be found. As we raise our children toward this uncertain future, Wylie-Kellermann helps us see that those same children shift our posture, slow us down, and invite us to fall in love with the ground on which we stand. At this turning point in humanity, we can choose to shift our lives away from death-dealing profit systems toward life-giving, generous systems. Here is the moment when we must choose to fight like hell for climate justice. And we can do it by nurturing a deeper relationship with this sweet earth in all its beauty, wonder, and wisdom, walking alongside our children.

THE JOY DOCUMENT

Creating a Midlife of Surprise and Delight

Jennifer McGaha

Broadleaf Books, November 2024

****NEW****

Author Jennifer McGaha (*Flat Broke with Two Goats*) offers up these fifty rollicking, often humorous essays on finding joy in the small things after age fifty to create a midlife full of surprise and delight.

Once you begin looking for joy, you can find it pretty much anywhere.

When Jennifer McGaha's grandmother was in her late eighties, Jennifer asked her what her favorite age so far had been. "Fifty-five," her grandmother answered, as though there were something magical about this stage of life, some deeper way of knowing from this vantage point. So, in her own fifty-fifth year, Jennifer began to take note. She jotted down her impressions of simple, everyday things that struck her as beautiful or humorous or intriguing and kept a list of all the accomplishments, large and small, that actually mattered to her.

These observations became Jennifer's Joy Document, a radical act of reclaiming joy and an exercise in paying attention. When you are determined to find joy, almost anything can become revelatory--an Earth Day Whole Foods errand, Claire Saffitz's fruitcake recipe, a harrowing ride in Twinkly Taxi, an evening picnic at Dvořák's *Symphony No. 8*, or cartwheels in the driveway. While many of us at midlife have found all the things we've strived for (the career, the better life, the organization tools), those things only go so far. And the search for something greater, something truer, begins. Through this lens, life after fifty becomes not the end or even the middle of life, but a new beginning, another grand adventure with endless opportunities to find joy. *The Joy Document* includes fifty rollicking and often humorous essays exploring the art of joy and inspiring the rest of us to do the same.

THE LOVE HABIT

Daily Self-Care Practices for a Happier Life and Healthier Relationships

Rainie Howard

Broadleaf Books, September 2024

Self-help author and relationship expert Rainie Howard explores the Love Habit--helping us to better understand our relationships with family, friends, society, and ourselves--to build lasting happiness and better relationships.

There's a secret that most people don't know: our self-image defines our relationship experiences with others.

In *The Love Habit*, author and relationship expert Rainie Howard urges readers toward a better understanding of their relationships with family, friends, society, and themselves. Because a person's self-image directly influences their daily habits (emotional, mental, and physical), which then directly impacts relationships with others, Howard sets out to help readers change patterns that are no longer working for them.

While many of us understand the effects of unhealthy relationships, we are often clueless on how to truly break free from them. This is because until we understand why people behave the way they do, and that we are actually subconsciously teaching others how to treat us, we are powerless at transforming this important area of our lives.

To be in healthy relationships--whether with a friend, at work, or in a romantic partnership--we must first start with the relationship we have with ourselves. Without addressing this missing piece of how we relate to ourselves, we end up perpetually stuck in unhealthy friendships, romantic relationships, and more--but also engaged in a pattern of repeatedly inviting new unhealthy or toxic relationships into our lives. If you're ready to break free of the cycle of unhealthy relationships, *The Love Habit* is here to show you how.

THE SHAPE OF JOY

****NEW****

The Transformative Power of Moving Beyond Yourself

Richard Beck

Broadleaf Books, October 2024

Author and psychologist Richard Beck (*Hunting Magic Eels*) offers an exploration of the geometry of joy and how moving beyond ourselves can lead us to greater fulfillment, happiness, and spiritual growth.

Our joy has a geometry, a shape. We must learn to look outside ourselves to find it.

In a world where mental health issues and loneliness are at an all-time high, it's more important than ever to find ways to cultivate joy, community, and meaning in our lives. Many of us feel trapped within ourselves, struggling to find a way out of our own negative thoughts and emotions. Author and psychologist Richard Beck (*Hunting Magic Eels*) argues that we are struggling because our shape is currently "curved inward." We are self-focused, self-absorbed, ruminative. We're trapped inside ourselves. And we're definitely not happy or filled with joy. So how do we control our egos and ambition when those drives have been useful to us in the past? How do we engage our imagination and our faith?

In his latest book, *The Shape of Joy*, Beck offers a powerful argument for how we can break free and rediscover the transcendent and the sacred. Beck argues that to find true joy and fulfillment, we need to understand the importance of "curving outward" and moving beyond the self to encounter true lovingness. Drawing from the principles of positive psychology, Beck explores concepts like gratitude, mindfulness, ego volume, and the small self to provide readers with a road map toward a healthier, happier, and more fulfilling life. Whether you're struggling with mental health issues, yearning for a deeper connection with your faith, or simply seeking greater happiness and fulfillment, *The Shape of Joy* will offer you an inspiring vision for a better future.

HOW TO LOVE A FOREST

****NEW****

The Bittersweet Work of Tending a Changing World

Ethan Tapper

Broadleaf Books, September 2024

A tender and fearless exploration of our relationship with forests and ecosystems from forester and debut author Ethan Tapper that challenges conventional beliefs and offers a new land ethic for the modern world.

A tender, fearless debut by a forester writing in the tradition of Suzanne Simard, Robin Wall Kimmerer, and Robert Macfarlane.

Only those who love trees should cut them, writes forester Ethan Tapper. In *How to Love a Forest*, he asks what it means to live in a time in which ecosystems are in retreat and extinctions rattle the bones of the earth. How do we respond to the harmful legacies of the past? How do we use our species' incredible power to heal rather than to harm?

Tapper walks us through the fragile and resilient community that is a forest. He introduces us to wolf trees and spring ephemerals, and to the mysterious creatures of the rhizosphere and the necrosphere. He helps us reimagine what forests are and what it means to care for them. This world, Tapper writes, is degraded by people who do too much and by those who do nothing. As the ecosystems that sustain all life struggle, we straddle two worlds: a status quo that treats them as commodities and opposing claims that the only true expression of love for the natural world is to leave it alone.

Proffering a more complex vision, Tapper argues that the actions we must take to protect ecosystems are often counterintuitive, uncomfortable, even heartbreaking. With striking prose, he shows how bittersweet acts--like loving deer and hunting them, loving trees and felling them--can be expressions of compassion. Tapper weaves a new land ethic for the modern world, reminding us that what is simple is rarely true, and what is necessary is rarely easy.

LITTLE AVALANCHES

Rebecca Ellis

Regalo Press, April 2024

"Becky Ellis has produced a masterpiece. There's no other book out there like this..."-- **Dale Maharidge**, nonfiction Pulitzer Prize winner, and the author of *Bringing Mulligan Home: The Other Side of the Good War*, and the podcast, *The Dead Drink*

"It's about trauma threading from one generation to the next, and how the stories we never wanted to remember bring us back to ourselves and each other, but most of all create room for the messy, complicated, all powerful compassion that heals us. From hippies to Nazi collaborators, Ellis carries us through decades and across continents, transforming how we might see everything in between." —**Janine Urbaniak Reid**, author of *The Opposite of Certainty*

"Becky Ellis cuts through the darkness with her memoir, *Little Avalanches*. Ellis is a brave and tireless storyteller who crosses an emotional and psychological minefield between herself and her war hero father...This memoir reads like a novel. You won't be able to put it down." —**Jennifer Lauck**, *New York Times* bestselling author of *Blackbird*

As a girl in Northern California in the early 70s, Becky Ellis was forced to hide from phantom Nazis in the middle of the night, pushed to shoot a gun at a very young age, and put through medical and dental procedures without pain medication. Her father was a doctor. A well-respected member of the community. A decorated veteran.

War has been the backdrop of many an inspiring tale of fearless and “unbroken” men—but what about their children and families? What happens when the decorated hero comes home? Can a family's humanity be restored after decades of silence and trauma? Can love survive war?

Told in an unconventional three-part and three-voice structure, *LITTLE AVALANCHES* explores intergenerational trauma in a gorgeously written, heart punch and heart healer of a book. It is an exploration of pain, love, grace, and humanity; a love story.

This is for readers who want to untangle their own family stories, and who loved Dani Shapiro's *INHERITANCE* and parent-child histories like Ariana Neumann's *WHEN TIME STOPPED*. It is for veterans and their families for whom war continues long after their time in combat.

Becky Ellis studied the art of memoir with Jennifer Lauck and story with Robert McKee; she holds a B.A. in English from the University of California, Berkeley. She also has over twenty years' experience in the publishing industry, from strategic product development of best-selling books to content positioning of major lifestyle brands, and national account sales. She resides in Portland, Oregon.

Praise for LITTLE AVALANCHES

"There is fear and love here, judgment and acceptance, innocence and wisdom. Little Avalanches is both a delicately wrought and powerfully told tale." --**Lauren Kessler**, author of *Free: Two Years, Six Lives, and the Long Journey Home*

"In this unflinching memoir of survival, Becky Ellis shares the disorienting experience of loving a parent she both idolized and feared, attempting to reconcile three sides of her father: a brave World War II hero and doctor, a terrifying bully who abused his children and wives, and a doting grandfather who yearns for forgiveness. Ellis's visceral, clear-headed prose made this book impossible to put down...." -- **Anna Bliss**, author of *Bonfire Night*

"Little Avalanches is a lifeline to families struggling to understand why Grunts come home and wound those they love. While there is no one truth in combat, only unique truths of the same experience, Becky Ellis has written a universal truth about the beast that prolonged combat unleashes and has shown us a way to share our stories and begin to heal. I saw both of my daughters' faces in these pages and am grateful to Ellis for telling the story nobody else would."— **Cpl. Robert Topping**, United States Marine Corps, Grunt-1968-1970; 3rd Marine Division, 3rd Marine Regiment, 2nd Battalion, Fox Company, 1st Platoon

THE OCCASIONAL HUMAN SACRIFICE

Medical Experimentation and the Price of Saying No

Carl Elliott

W.W. Norton, May 2024

“Fascinating... A disturbingly eye-opening must-read.” –*Kirkus Reviews*, starred review

"The Occasional Human Sacrifice is a brilliant, harrowing book: part medical investigation, part memoir, part searing portrait of human behavior— from systematic cruelty to near-obsessive moral codes. Carl Elliott has written a page-turner that manages to be both cynical and deeply compassionate. Urgent, unforgettable, and beautifully written."
–**Julie Schumacher**, author of *Dear Committee Members* and *The Shakespeare Requirement*

“Whistleblowing is a poor mechanism for institutional reform”
–Carl Elliott

Shocking cases of abusive medical research and the whistleblowers who spoke out against them, sometimes sacrificing their careers.

Beginning with the public health worker who exposed the Tuskegee Syphilis Study and ending with the four surgeons who blew the whistle in 2016 on the lethal synthetic trachea transplants performed by an Italian doctor in various countries. Elliott tells the stories of insiders who spoke out against such abuses, and often paid a terrible price for doing the right thing.

Carl Elliott is a bioethicist at the University of Minnesota who was trained in medicine as well as philosophy. For many years he fought to expose a psychiatric research study at his own university that cost a patient his life. Elliott’s efforts alienated friends and colleagues, and the university stonewalled him and denied wrongdoing until a state investigation finally vindicated his claims. This experience frames the six stories in this book of medical research in which patients allegedly gave their “consent” to participate in experimental programs they did not understand and which had astonishing and well-concealed mortality rates.

JIMI AND ME

The Experience of a Lifetime

Jonathan Stathakis with Chris Epting

Permuted Press, December 2023

A young screenwriter is invited to collaborate with Jimi Hendrix on a film, resulting in the wildest eighteen months of his life and coinciding with the tumultuous final months of Hendrix's life.

In 1969, a twenty-something screenwriter with one movie credit to his name is approached by Jimi's management after the legendary guitarist saw the obscure indie film in London and had the idea to collaborate on a project of his own. Jonathan Stathakis had no idea how thrilling the next eighteen months would be, as he and Hendrix formed not just a working partnership but a unique friendship. Hendrix ushered Jonathan into his world, where plenty of sex and drugs surrounded the rock 'n' roll. From Woodstock to Electric Ladyland, Jonathan leads readers inside one of the craziest trips ever taken in music history.

While writing their script, Jonathan and Hendrix talked about life and where their roads were leading. Hendrix the performer was a flamboyant unpredictable force of nature. But Hendrix the friend was a thoughtful, frustrated, dedicated artist who oftentimes just needed somebody to talk to. Sadly, Hendrix's journey ended far too soon, and his last phone call to Jonathan—just two days before his death in London—almost seemed to foretell his fate.

With many never-before-told stories and never-before-seen photographs, Jimi Hendrix comes back to life as you've never experienced him before. Backstage, on stage, and everywhere in between, get ready to ride through the purple haze and experience one of the most creative and powerful cultural eras in history. It's *Almost Famous* with a Hendrix twist.

TO INFINITY AND BEYOND

A Journey of Cosmic Discovery

Neil deGrasse Tyson and Lindsey Nyx Walker

National Geographic, September 2023

This enlightening illustrated narrative by the world’s most celebrated astrophysicist explains the universe from the solar system to the farthest reaches of space with authority and humor.

No one can make the mysteries of the universe more comprehensible and fun than Neil deGrasse Tyson. Drawing on mythology, history, and literature—alongside his trademark wit and charm—Tyson and StarTalk senior producer Lindsey Nyx Walker bring planetary science down to Earth and principles of astrophysics within reach. In this entertaining book, illustrated with vivid photographs and art, readers travel with him through space and time, starting with the Big Bang and voyaging to the far reaches of the universe and beyond. Along the way, science greets pop culture as Tyson explains the triumphs—and bloopers—in Hollywood’s blockbusters: all part of an entertaining ride through the cosmos.

The book begins as we leave Earth, encountering new truths about our planet’s atmosphere, the nature of sunlight, and the many missions that have demystified our galactic neighbors. But the farther out we travel, the weirder things get. What’s a void and what’s a vacuum? How can light be a wave and a particle at the same time? When we finally arrive in the blackness of outer space, Tyson takes on the spookiest phenomena of the cosmos: parallel worlds, black holes, time travel, and more.

For science junkies and fans of the conundrums that astrophysicists often ponder, *To Infinity and Beyond* is an enlightening adventure into the farthest reaches of the cosmos.

BLUE ZONES SECRETS FOR LIVING LONGER

Lessons From The Healthiest Places on Earth

Dan Buettner

National Geographic, August 2023

The creator of National Geographic's popular Blue Zones—now a documentary on Netflix—brings readers a beautifully illustrated and informative guide to the places on Earth where people live the longest—including lessons learned, top longevity foods, and the behaviors to help you live to 100—plus a surprising new blue zone.

National Geographic Explorer and best-selling author Dan Buettner has traveled the globe to uncover the best strategies for longevity, which he found in the blue zones: places around the world where higher percentages of people enjoy remarkably long, full lives.

In *The Blue Zones Secrets for Living Longer*, Buettner returns to Sardinia, Italy; Ikaria, Greece; Okinawa, Japan; Costa Rica's Nicoya Peninsula; and Loma Linda, California to check in on the super-agers living in the blue zones and interprets the not-so-secret sauce of purpose, faith, community, down-time, natural movement, and plant-based eating that has powered as many as 10 additional years of healthy living in these regions. And Buettner reveals an all-new blue zone—the first man-made blue zone yet explored.

Throughout his two decades of research, Buettner has worked with some of National Geographic's top photographers—including David McLain and Gianluca Cola—to document the healthy habits of the world's longest living communities. In this informative collection, their work punctuates Buettner's lively text, offering a beautiful tour of the blue zones.

THE SPIRITUALITY OF DREAMING

Unlocking the Wisdom of Our Sleeping Selves

Kelly Bulkeley

Broadleaf Books, December 2023

Long listed in *Chanticleer Reviews*' for the "Mind and Spirit Award 2023"

***The Spirituality of Dreaming* will help contemporary readers connect with the dream wisdom of various faiths and develop their own innate capacities for spiritual dreaming. This book offers a bigger, more expansive way of thinking about dreams, spirituality, community, and even cultural transformation.**

Enhance your dreaming with groundbreaking research and wisdom from vivid dreamers throughout history, sacred texts, and the present day.

We're asleep almost a third of our lives. What if those sleeping hours hold wisdom, creativity, and even connection with the divine? What if our dreams offer spiritual insight and guidance—not just for ourselves, but for our communities?

In *The Spirituality of Dreaming*, leading dream scholar and expert Dr. Kelly Bulkeley brings us a set of time-honored methods to stimulate innate dreaming capacities and amplify their impact in our waking lives.

Dreams have been a perennial source of spiritual insight and guidance across all cultures and religions throughout history, he asserts, but the sacred energy of our dreams has often remained untapped. Relying on years of research, data analysis, and interviews, Bulkeley offers wisdom and strategies from "big dreamers"—people who have vivid, intense dreams and remember them. He also distills the latest findings on dreams: the impact of digital technologies on our dreams, the phenomena of lucid dreaming and dreaming incubation, practices of dream-sharing, the creative role of dreams in cultural innovation, and the growing evidence that animals dream too.

In conversation with people who care about dreams and spirituality, Bulkeley makes a case for taking ourselves seriously as dreaming visionaries. By drawing on classic and contemporary works of theology, anthropology, and psychology, along with the latest dream research, Bulkeley maps the spiritual power of dreaming and argues that our dreams matter in ways we do not yet fully realize, both individually and collectively. Together we can learn how to unlock the sacred truths revealed within our sleeping selves.

RESEARCH TO EMPOWER

****NEW****

A Vibrant Guidebook for Young Students

Grace Liu

Post Hill Press, January 2024

“*Research to Empower* is an extraordinary book that equips the next generation with essential tools to unlock the world of knowledge. Through its engaging and accessible approach, this guide offers invaluable guidance on conducting thorough research, critical thinking, and presenting findings effectively. It encourages curiosity, inspires creativity, and instills a passion for learning. It is an absolute must-read for anyone ready to make a positive change in the world.”
— **Ms. Amy Meuers**, CEO of National Youth Leadership Council, USA

“This is a much-needed book for which there are few, if any others, that are as enjoyable, well-written, and practical.” — **Dr. Brian Baird**, Chair and Founder at National Museum and Center for Service, USA

“Grace C. Liu has written an impressive and inspiring book for younger and older readers alike. As the title, *Research to Empower*, suggests, the goal of research is not merely to accumulate knowledge, although that is clearly one important objective, but to empower researchers and society, in general, to make the world a better place.” — **Dr. Alfred Watkins**, Founder, and CEO, Global Solutions Summit

***Research to Empower* is a vibrant, fun, and practical guide written for students who want to win the “game” of research by a student who’s figured it out.**

With prevalent misinformation, the rise of social media, and artificial intelligence writing for us, we live in an era where learning research techniques and processes is needed more than ever to differentiate between true and false statements. Research also leads to new knowledge, creativity, and innovation. Most importantly, it empowers young people to pursue their interests, solve crucial problems, and master a set of essential, irreplaceable skills like critical reasoning, in-depth thinking, and communication.

Unsurprisingly, there is a huge demand for students to learn how to research. However, there is a lack of guidebooks with engaging and illuminating content that appropriately introduces research to young students. How can we help those with the potential to come up with amazing, possibly world-changing, ideas if they don’t know where, when, or how to start? How do we make sure they get the resources they need?

Grace Chenxin Liu shares her knowledge about conducting research as a student with step-by-step guidance, delivering honest and effective tips that empower young students to do excellent research. Are you ready? Let’s begin—and don’t forget, if Grace can do it, everyone can do it too!

THERE'S GOT TO BE A BETTER WAY!

(Re)designing Work for a Rapidly Changing World

Nelson Reppenning and Donald Kleffer

Public Affairs, November 2024

There's Got to Be a Better Way! (Re)designing Work for a Rapidly Changing World by Nelson Reppenning, Distinguished Professor at MIT Sloan School of Management and Associate Dean for Leadership and the Director of MIT's Leadership Center, and Donald Kieffer, Senior Lecturer in Operations Management at MIT Sloan School of Management, and founder of ShiftGear Work Design.

There's Got to Be a Better Way! is based on dynamic work design, a process pioneered by the authors, and which has been used successfully by dozens of organizations over the past twenty-five years to achieve significant gains in effectiveness. The process is based around four principles: reconciling activity and intent, connecting the human chain with triggers and checks, structuring problem-solving, and managing for optimal challenge. And, it is implemented and managed through a novel visual management system that allows everyone to assess the health of the system in real-time.

The book is filled with stories of success, including eight of the most compelling examples of how dynamic work design has been used to remove organizational roadblocks, reach collective goals that previously seemed impossible, and help leadership teams feel good about the work they are doing. From a Boston day shelter for low-income women to a leading semiconductor company, these case studies demonstrate how dynamic work design can be used to increase productivity, efficiency, and job satisfaction. Whether you're a manager, executive, or consultant, *There's Got to Be a Better Way!* is a must-read in a rapidly changing world.

FOUR BATTLEGROUNDS

Power in the Age of Artificial Intelligence

Paul Scharre

W.W. Norton, February 2023 , paperback February 2024

"This study of the struggle over AI is well-written, impeccably sourced, and densely detailed. Readers knowledgeable about computer science will find it clarifying, while others will gain immense understanding of an often opaque if important subject." —**Booklist**

"Scharre's levelheaded takes distinguish this from more alarmist outings. Technophiles and technophobes alike will be challenged and enlightened." —**Publisher's Weekly**

An award-winning defense expert tells the story of today's great power rivalry—the struggle to control artificial intelligence.

A new industrial revolution has begun. Like mechanization or electricity before it, artificial intelligence will touch every aspect of our lives—and cause profound disruptions in the balance of global power, especially among the AI superpowers: China, the United States, and Europe.

Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game-changing technology and dominate the future.

Four Battlegrounds argues that four key elements define this struggle: data, computing power, talent, and institutions. Data is a vital resource like coal or oil, but it must be collected and refined. Advanced computer chips are the essence of computing power—control over chip supply chains grants leverage over rivals. Talent is about people: which country attracts the best researchers and most advanced technology companies? The fourth "battlefield" is maybe the most critical: the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy, society, and especially their military.

Scharre's account surges with futuristic technology. He explores the ways AI systems are already discovering new strategies via millions of war-game simulations, developing combat tactics better than any human, tracking billions of people using biometrics, and subtly controlling information with secret algorithms. He visits China's "National Team" of leading AI companies to show the chilling synergy between China's government, private sector, and surveillance state. He interviews Pentagon leadership and tours U.S. Defense Department offices in Silicon Valley, revealing deep tensions between the military and tech giants who control data, chips, and talent. Yet he concludes that those tensions, inherent to our democratic system, create resilience and resistance to autocracy in the face of overwhelmingly powerful technology.

Engaging and direct, *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare, global security, and the future of human freedom—and what it will take for democracies to remain at the forefront of the world order.

From 2008 to 2013, he worked in the Office of the U.S. Secretary of Defense on policies for robotics, autonomy, and other emerging weapons technologies. He led the drafting of the official U.S. Department of Defense policy on autonomous weapons.

Praise for FOUR BATTLEGROUND

Paul Scharre Named to TIME's Inaugural List of the TIME100 AI

"A solid, well-organized account of the military applications of AI and of the race to take the lead global position." –**Kirkus Reviews**

"Required [reading] for anyone interested in the future of the global economy or geopolitics." - **Thomas E. Ricks**, *New York Times Book Review*

"Paul Scharre argues that the AI race between democratic and authoritarian states is well underway, and the stakes could not be higher: whoever wins will write the international rules of the next century. With revealing anecdotes, cogent analysis, and incisive insight, Scharre demystifies AI and its national security implications. If you read one book on AI this year, read this one!" - **Michele Flournoy**, former under secretary of defense for policy

"A must-read guide to how the emerging artificial intelligence arms race will shape the geopolitical, economic, and political struggle between China and its authoritarian allies and the democratic West led by the United States and Europe." - **Martin Ford**, author of *Rule of the Robots*

"America and its military are facing a major test when it comes to AI. The country that best incorporates artificial intelligence technology into its defense will have significant military advantages over its competitors. *Four Battlegrounds* is an essential book for everyone involved in American leadership and American defense, because it outlines the challenges we face and explains the key components that will determine our success in using this important new technology to support American power and American ideals." - **Admiral James Stavridis**, 16th supreme allied commander of NATO

"An invaluable primer to arguably the most important driver of change for our future. Scharre marshals fact after fact to explain not just the technology, but the trends soon to unfold and remake our world."

"In this riveting book on AI and power by one of the leading strategists of our time, Paul Scharre highlights an existential challenge: as Americans and Chinese militarize ever more powerful AI to avoid ceding control to each other, they risk ceding too much power to machines."

– **Prof. Max Tegmark**, MIT AI researcher and author of *Life 3.0*

"How will AI change the balance of power between authoritarian states and democracies? This is one of the most important questions in geopolitics today. Authoritarians have already figured out how to use AI to their maximum advantage, and democrats must urgently do the same or risk losing the contest. First step: Read this book, a farsighted and comprehensive survey of the issues involved and the paths forward."

WOMEN WITHOUT KIDS

The Revolutionary Rise of an Unsung Sisterhood

Ruby Warrington

Sounds True, March 2023, paperback May 2024

“Ruby Warrington offers a compassionate exploration into what can be a highly loaded and emotional topic—the choice whether or not to have children... Women Without Kids is a must-read for anyone seeking a full understanding of all the dynamics that play into this significant life choice.” —**Dr. Nicole LePera, *New York Times* bestselling author of *How to Do the Work***

“A sharp and intricate look at the personal and political sides of being a child-free woman ... this is an exciting, bold, feminist book that gives the child-free conversation the space it deserves.” —**Emma Gannon, bestselling author of *Olive* and host of the *Ctrl Alt Delete* podcast**

“This isn’t a book about not having kids for the defiantly childless. This is a book about motherhood under patriarchy... It is a startling, confronting, and liberating treatise.” —**Holly Whitaker, *New York Times* bestselling author of *Quit Like a Woman***

A timely and radical reframing of everything it means *not* to be a mom

What is “woman” if not “mother”? Forgoing motherhood has traditionally marked a woman as “other.” With no official place setting for her in our society, she has hovered on the sidelines: the quirky girl, the neurotic career obsessive, the “eccentric” aunt. Instead of continuing to paint women without kids as sad, self-obsessed, or somehow dysfunctional, what if we saw them as boldly forging a first-in-a-civilization vision for a fully autonomous womankind? Or as journalist and thought leader Ruby Warrington asks, “What if being a woman without kids were in fact its own kind of legacy?”

Taking in themes from intergenerational healing to feminism to environmentalism, this personal look and anthropological dig into a stubbornly taboo topic is a timely and brave reframing of everything it means *not* to be a mom. Set against the backdrop of an unprecedented global reproduction slowdown, “the choice of whether or not to have kids is a natural part of women’s ongoing fight for gender equality,” Warrington writes. “And whether we are childless by design or circumstance, we can live without regret, shame, or compromise.”

Bold and tenderhearted, *Women Without Kids* unites the “unsung sisterhood” of non-mothers—no longer pariahs or misfits, but a vital part of our evolution and collective healing, as women, as humans, and as a global family.

SIT IN THE SUN

And Other Lessons in the Spiritual Wisdom of Cats

Jon M. Sweeney

Broadleaf Books, April 2023

"Cat lovers and fans of Sweeney's other works will be excited about this title. This is a good spiritual nonfiction book, a cozy one for (readers) to sit with over a cup of tea or in a meditation pose with a cat curled in their lap." —*Library Journal*

"Spirituality author Sweeney here pounces on the endearing (or less so) habits of our cat companions, providing segues into comparable activities for humans, and every other paragraph seems to have a quote worth saving: 'Be foolish, just a bit.'" --*Booklist*

As a spiritual pilgrim for more than half a century, Jon Sweeney has practiced with teachers of many religious traditions. He's gone looking for wisdom, beauty, and truth wherever it can be found. But recently he's found himself learning closer to home--from the teacher-cats he lives with.

What he discovered is that our greatest spiritual teachers are at our feet. Literally. They are the cats we love and treasure. Nearly 60 million cats live in US households today. These feline teachers have much to offer us about living in the present, loving unconditionally, approaching life with a sense of playfulness, and trusting others, all the while being independent spirits.

Jon Sweeney, beloved scholar and author of *The Pope's Cat* and numerous books about Saint Francis, offers a beautifully illustrated, playful, gentle, informed meditation on the many spiritual truths and practices our feline companions provide if we but pause and pay attention.

A HITWOMAN'S GUIDE TO REDUCING HOUSEHOLD DEBT

Mark Mupotsa-Russell

Affirm Press, September 2024

****NEW****

This darkly amusing and pacey thriller follows hitwoman-turned-suburban-mom Olivia Hodges, who used to do horrible things, back when she worked for a Spanish syndicate. She fled that life and moved home to Australia, building a loving family in a hippie, hipster community where she waits for her past to catch up with her.

When a small-time criminal gang accidentally kills someone she loves, superstitious Olivia thinks it's the universe finally demanding payment for her crimes. If she wants revenge, she'll have to get it without adding to her karmic debt—leading her to leverage her targets' anger, ego and greed to kill them without actually killing them, all while trying to mislead the cops and her husband long enough to finish what she started.

Olivia's voice is astounding: she's cynical, witty and deeply human in a way that never feels forced. It's quite a feat to write a novel that's all-in-one package-- a deliciously tangled thriller and a searing depiction of a marriage in crisis —and to make it so funny. A HITWOMAN'S GUIDE TO REDUCING HOUSEHOLD DEBT hits the target.

THE ACCIDENTAL JOE

The Top-Secret Life of a Celebrity Chef

Tom Straw

Regalo Press, May 2024

A maverick celebrity chef reluctantly agrees to let the CIA use his hugely popular international food, culture, and travel TV series as cover for a dangerous espionage mission.

When the CIA approaches celebrity chef Sebastian Pike about using his award-winning food and culture travel show as cover for espionage, the outspoken bad-boy host says no. When they point out how roaming the globe interviewing foodies, heads of state, rock stars, journalists-in-exile, poets, subversives, supermodels—even the pope—gives him perfect cover, Pike smiles and says, “F@#! No.”

They push. Promising it’s only one mission. Vowing he won’t be in danger. Calling him the MVB: Most Valuable Bystander. They’d embed their top agent in his crew to do the spy work.

It’s still no. But when they hit him with the patriotism card, he weakens. And when romantic sparks crackle between him and the female agent, Pike’s all in, kicking off a romantic spy thriller in which the globetrotting celebrity chef uses his TV series to help sneak Putin’s accountant out of Russia before he’s exposed as a mole for US intelligence.

It’s still no. But when they hit him with the patriotism card, he weakens. And when romantic sparks crackle between him and the female agent, Pike’s all in, kicking off a romantic spy thriller in which the globetrotting celebrity chef uses his TV series to help sneak Putin’s accountant out of Russia before he’s exposed as a mole for US intelligence.

The high-stakes mission quickly puts Pike in harm’s way. So much for MVB. There’s danger, there’s double dealing, there’s torture, there’s shooting with real bullets. Plus, a minefield of complications from the hot romance that grows between Pike and his gutsy CIA handler-producer, Cammie Nova.

THE CHEESEMAKER'S DAUGHTER

NEW

Kristin Vuković

Regalo Press, August 2024

When Marina's father summons her to their Croatian island from New York—and away from her evaporating marriage—to help him save his failing cheese factory, she must face her rocky past and an uncertain future

How do you begin again when the past threatens to drown you?

In the throes of an unraveling marriage, New Yorker Marina Maržić returns to her native Croatian island where she helps her father with his struggling cheese factory, Sirana. Forced to confront her divided Croatian-American identity and her past as a refugee from the former Yugoslavia, Marina moves in with her parents on Pag and starts a new life working at Sirana. As she gradually settles back into a place that was once home, her life becomes inextricably intertwined with their island's cheese. When her past with the son of a rival cheesemaker stokes further unrest on their divided island, she must find a way to save Sirana—and in the process, learn to belong on her own terms.

Exploring underlying cultural and ethnic tensions in a complex region mired in centuries of war and turmoil, *The Cheesemaker's Daughter* takes us through the year before Croatia joins the European Union. On the dramatic moonscape island of Pag, we are transported to strikingly barren vistas, medieval towns, and the mesmerizing Adriatic Sea, providing a rare window into a tight-knit community with strong family ties in a corner of the world where divisions are both real and imagined. Asking questions central to identity and the meaning of home, this richly drawn story reckons with how we survive inherited and personal traumas, and what it means to heal and reinvent oneself in the face of life's challenges.

Take one chef and one ghostwriter. Place in a too-small kitchen, then add one fake relationship, several meddling relatives, a feline escape artist, and a lot of delicious meals. It could be a recipe for disaster, or it could be the best thing they've ever cooked up.

Kieran O'Neill should be on top of the world. He's just won the cooking reality TV show *Fire on High*, he's on track to open his own restaurant before he turns thirty, and he's even got a high-paying cookbook deal. Still he can't impress his stuck-up family, his ADHD makes planning ahead impossible, and worst of all, his ghostwriter is the most uptight, humorless woman he's ever met.

But to be seen as a serious chef like he's always wanted, he needs to finish this book...

Ellie Wasserman is barely holding it together. She's a thirty-year-old widow living with her needy in-laws, her little brother won't adult without her help, and instead of working on her own cookbook, she's ghostwriting one for the chaotic, impulsive Kieran O'Neill. Or would be, if he'd ever answer her emails.

But to own her own home like she's always dreamed of, she needs to finish this book...

As their deadline gets closer and the heat between them builds, can these two driven, lonely people let go of their past hurts and make something truly sweet together? Or will fragile new love go up in smoke?

THE NORTH LINE

Matt Riordan

Hyperion Avenue, April 2024

“The North Line is a ruggedly erudite story that combines the best of the individualism of Jack London with the introspective ruminations of Raymond Carver . . . not to be missed.”

–**S.A. Cosby, New York Times bestselling author of *All the Sinners Bleed***

“The North Line is one of those rare books that you feel as much as read. The world and its details are so real, so intimate, and so lived-in and that I had to check my fingertips for fish scales once I finished reading.”

–**Craig Davidson, author of *Rust and Bone***

“Riordan is summoning demons in this grimy wilderness saga that might hit entirely too close to home for those who know. Magnificent.”

–**Laird Barron, author of *The Wind Began to Howl***

In Matt Riordan’s debut novel, a college student in need of quick money finds work on an Alaskan fishing boat in the unforgiving Bering Sea.

Even at the ragged edge of civilization, some lines should not be crossed.

Everyone believes Adam to be something he’s not. Sometimes that’s because he’s told them a story. Sometimes he’s told himself one. But when Adam joins an Alaskan fishing crew that’s promising quick money, the dangerous work and harsh lifestyle strip away all fabrications and force a dark-hearted exploration of who he really is.

On the unforgiving Bering Sea, Adam finds the adventure and authenticity of a fisherman’s life revelatory. The labor required to seize bounty from the ocean invigorates him, and the often crude comradery accompanies a welcome, hard-earned wisdom. But when a strike threatens the entire season and violence stalks the waves, Adam is thrust into a struggle for survival at the edge of the world, where evolutionary and social forces collide for outcomes beyond anyone’s control.

In his riveting debut novel, Matt Riordan pairs personal experiences with a master storyteller’s eye in a piercing examination of the quest for identity in the face of tempests within and without.

MISS MORGAN'S BOOK BRIGADE

Janet Skeslien Charles

Atria Books, April 2024

“Charles (*The Paris Library*) follows up her bestselling debut with a dramatic story of war and literature in WWI France.... Charles packs Jessie’s story with emotion...Bibliophiles are in for a treat.” –*Publisher’s Weekly*

From the *New York Times* and internationally bestselling author of *The Paris Library* comes **MISS MORGAN'S BOOK BRIGADE**, a powerful historical novel that charts the lives of two NYPL librarians across the barrier of decades.

1918. World War I. Northern France is a battlefield. The American Committee for Devastated France establish their headquarters just miles from the front. This group of international women help French families who’ve lost everything – homes, livelihoods, and limbs. They save children, restore bombed villages, and evacuate civilians.

Jessie "Kit" Carson takes a leave of absence from the NYPL in order to establish something that the French have never seen – children’s libraries – as well as to escape her boss. She turns ambulances into bookmobiles, creates libraries, and trains the first French female librarians. Then she disappears.

1987. Wendy Peterson stumbles across a mention of Jessie Carson in the NYPL archives and becomes consumed with learning her fate. Fixation is nothing new to Wendy. She’s obsessed with Roberto, her handsome coworker. She worries about her best friend, Leigh, who grows more and more distant. Wendy soon learns that she and Jessie Carson have more in common than their work at the New York Public Library.

With a dazzling cast of real-life characters, **MISS MORGAN'S BOOK BRIGADE** highlights themes of resilience, friendship, and community. Once again, Janet Skeslien Charles brings history alive with this meticulously researched, little-known story of incredible women who face the danger of war to share their love of literature and their belief in books as bridges.

MORNING PAGES

Kate Feiffer

Regalo Press, May 2024

“Feiffer’s novel is a seductive meditation on the shifting roles women play as daughters, mothers, wives, and artists. Full of wise observations and a scathing wit, this smart, engrossing read will stay with you long after you’ve finished. Original and enthralling.”— **Fiona Davis**, *New York Times* bestselling author of *The Spectacular*

“*Morning Pages* plies a withering wit in the service of an open-hearted exploration of love, career, and family. As the playwright-narrator tackles her block through the writers-class exercise of early morning free association, we feel the squeeze of her sandwich-generation predicament, caring for a declining mother and an inscrutable and increasingly distant adolescent son. Not since Andrew Sean Greer’s *Less* have I laughed so much and, at the same time, been so moved.” — **Geraldine Brooks**

“I laughed out loud at Kate Feiffer’s comic characters and clever way with words. Her protagonist Elise is caught in the all-too-common middle-aged pickle of being sandwiched between a disengaged teenage son and an overly engaged parent, while at the same time, trying to revive her flatlining career and moribund love life. Feiffer’s inventive framework of a play within a novel deftly reveals the challenging issues beneath the humor. The reader roots for Elise to find a path forward and show us the way.” — **Alisyn Camerota**, CNN

When her professional and family life collide, a playwright starts journaling every morning to push through her writer’s block in this laugh-out-loud and fresh take on family, friendship, and the chaos of midlife.

Elise Hellman was once heralded by audiences and critics as a “playwright to watch.” Then they forgot all about her. When a prestigious theater company unexpectedly offers her a generous commission to write a new play, she has an opportunity to turn her career around. With sixty-five days left until her deadline, Elise starts scribbling a few pages of stream-of-consciousness first thing every morning as a way to get over her writer’s block—a technique called Morning Pages, popularized in Julia Cameron’s *The Artist’s Way*.

What emerges is a witty confessional in which Elise chronicles her life with her teenage stoner son and her overbearing and eccentric mother, who is losing her memory but not her profanity. She writes about her lingering feelings for her ex-husband, her best friend who is acting oddly, and the confusing encounters she has with a handsome stranger in an elevator. As she writes, the marked-up scenes from her play, *Deja New*, are revealed, as a story within the story.

Morning Pages is about what life throws at you when you’re trying to write. It is both a humorous exploration of the creative process and a relatable coming-of-age tale for the generation sandwiched between caring for their parents and caring for their kids.

The second novel from the international bestselling author of THE DICTIONARY OF LOST WORDS. Film rights optioned to Highview Productions and Closer Productions. (US title: THE BOOKBINDER)

Whose truth is lost when knowledge is controlled by men?

In 1914, when the war draws the young men of Britain away to fight, it is the women left behind who must keep the nation running. Two of those women are Peggy and Maude, twin sisters who work in the bindery at Oxford University Press. Peggy is intelligent, ambitious and dreams of going to Oxford University, but for most of her life she has been told her job is to bind the books, not read them. Maude, meanwhile, wants nothing more than what she has. She is extraordinary but vulnerable. Peggy needs to watch over her.

When refugees arrive from the devastated cities of Belgium, they send ripples through the community and through the sisters' lives. Peggy begins to see the possibility of another future where she can use her intellect and not just her hands, but as war and illness reshape her world, it is love, and the responsibility that comes with it, that threaten to hold her back.

The Bookbinder of Jericho is a story about knowledge – who makes it, who can access it, and what truth may be lost in the process. In this beautiful companion to the international bestseller *The Dictionary of Lost Words*, Pip Williams explores another rarely seen slice of history seen through women's eyes. Intelligent, thoughtful and rich with unforgettable characters.

IT COULD BE WORSE

Dara Levan

Regalo Press, March 2024

“The gorgeous prose and raw, unflinching narrative both heal and inspire. A stunning debut.” -**Samantha M. Bailey**, *USA Today* and international bestselling author of *Woman on the Edge*

“Readers will cheer for Allegra Gil, the spirited narrator of *It Could Be Worse*, who faces boundary-busting parents, a not so easy-peasy pregnancy, the madness of motherhood, a health scare, and the everyday angst of work/life balance with wit and grit. If life gives you lemons, read Dara Levan’s delightful debut novel.” -**Sally Koslow**, bestselling author of *The Real Mrs. Tobias*

“Visceral and moving. A must read for anyone seeking to understand the impact of parent-to-child narcissistic abuse. Inner child trauma is so powerful, so lasting, so tough to overcome. Levan conveys trauma with complexity, compassion, and empathy.” -**Andra Watkins**, *New York Times* bestselling author

“A powerful and poignant story about letting go. Dara Levan skillfully explores the effects of narcissistic personality disorder on the entire family. This is a book I will remember for a long time.” -**Jean Meltzer**, international bestselling author of *The Matzah Ball*

***It Could Be Worse* is a tale of acceptance and awakening—but not necessarily forgiveness—that reminds us we can choose how our stories end.**

Mired in self-doubt and blind loyalty, Allegra Gil suspects her charmed life may be a gilded cage. She has a devoted husband, Benito, two loving children, a thriving therapy practice, and lifelong friends. But when a surprising discovery in a piano bench reveals a shocking family secret, Allegra questions everything she thought she knew about the two people who raised her. Was it true? Did her father, a respected pediatric neurosurgeon, harm instead of heal? And Allegra’s mother—how much did she know?

As the past threatens the present, Allegra plays the song of what was, what is, and what may never be in this “powerful and poignant story about letting go” (Jean Meltzer, international bestselling author of *The Matzah Ball*).

Composed with the cadence of a waltz—up, up, down—through flashbacks to childhood memories in Miami and a music camp in Michigan, *It Could Be Worse* is a heartwarming, at times heart-wrenching, multigenerational story of a woman supported and embraced by many while shaken to the core by a few.

THE MAYOR OF MAXWELL STREET

Avery Cunningham

Hyperion Avenue, January 2024

“Cunningham’s striking debut chronicles the tribulations of a striving Black family in Prohibition-era Chicago.” –*Publishers Weekly*

“A debut novel everyone will be talking about,” Avery Cunningham’s epic love story is “a triumph” and “a tale of intrigue, racial tension, and class warfare, set against the glamorous and gritty backdrop of early 20th century Chicago.

When a rich Black debutante enlists the help of a low-level speakeasy manager to identify the head of an underground crime syndicate, the two are thrust into the dangerous world of Prohibition-era Chicago.

The year is 1921, and America is burning. A fire of vice and virtue rages on every shore, and Chicago is its beating heart.

Nelly Sawyer is the daughter of the “wealthiest Negro in America,” whose affluence catapulted his family to the heights of Black society. After the unexpected death of her only brother, Nelly becomes the premier debutante overnight. But Nelly has aspirations beyond society influence and marriage. For the past year, she has worked undercover as an investigative journalist, sharing the achievements and tribulations of everyday Black people living in the shadow of Jim Crow. Her latest assignment thrusts her into the den of a dangerous vice lord: the so-called Mayor of Maxwell Street.

Born in rural Alabama to a murdered biracial couple, Jay Shorey knows firsthand what it means to be denied a chance at the American dream. When a tragic turn of fate gave Jay a rare path out, he took it without question. He washed up on Chicago’s storied shores and forged his own way to the top of the city’s underworld, running Chicago’s swankiest speakeasy, where the rich and famous rub elbows with gangsters and politicians alike.

When Nelly’s and Jay’s paths cross, she recruits him to help expose the Mayor and bring about lasting change in a corrupt city. But Jay also introduces a whole new world to Nelly, one where her horizons can extend beyond the confines of her ivory tower. Trapped between the monolith of Jim Crow, the inflexible world of the Black upper class, and the violence of Prohibition-era Chicago, Jay and Nelly work together and stoke the flames of a love worth fighting for.

Debut author Avery Cunningham’s stunning novel is at once an epic love story, a riveting historical drama, and a brilliant exploration of Black society and perseverance when the ‘20s first began to roar.

Linda Margolin Royal was born in Sydney, forever thankful her father and grandparents received life-saving transit visas from Chiune Sugihara in 1940, which enabled them to enter Japan and escape the Holocaust; and ultimately meant they could find a permanent, safe home in Australia in 1941. The remainder of her family numbering in the hundreds were murdered in concentration camps. This work is a labor of love to which she is now devoting her life. She trained as a graphic designer and then copywriter, and spent 30 years in the advertising industry both in Australia and the US, writing TV, radio and press for major multinationals. Her first instinct was to write her family's story as a film, which is currently in development; and the book grew organically from this screenplay. Linda's creative bent extends to abstract painting and drawing from live models – skills she has carried through life from her time in design school. *The Star on the Grave* is her first novel.

REEF ROAD

Deborah Goodrich Royce

Post Hill Press, January 2023

A Publishers Weekly Bestseller

"Reef Road is magnificent. It feels utterly real, a novel of deeply personal context. It swerves between truth and lies—the lies that lead to an even deeper—and more devastating—truth. Though pure fiction, it reads as compellingly as a mixture of memoir and exposé. It has left me shaken to the core. Deborah Goodrich Royce writes with brilliant understanding of the mystery and occasional grace of trauma." —**Luanne Rice, New York Times bestselling author**

When a severed hand washes ashore in the wealthy enclave of Palm Beach, Florida, the lives of two women—a lonely writer obsessed with the unsolved murder of her mother's best friend and a panicked wife whose husband has disappeared with their children—collide as the world shutters in the pandemic lockdown of 2020.

A young woman's life seems perfect until her family goes missing. A writer lives alone with her dog and collects arcane murder statistics. What each of them stands to lose as they sneak around the do-not-enter tape blocking Reef Road beach is exposed by the steady tightening of the cincture encircling them.

In a nod to the true crime that inspired it, Deborah Goodrich Royce's *Reef Road* probes unhealed generational scars in a wrenching and original work of fiction. It is both stunning and sexy and, like a bystander surprised by a curtain left open, you won't be able to look away.

SILICON HEARTS

Robin Miyashita

Hyperion Avenue, August 2023

“... this duo of first-time authors who work in the tech industry do an excellent job building the slightly futuristic tech world and creating a cast of fun, dynamic, and diverse supporting characters... will appeal to readers who like a focus on the friendships outside of the romantic entanglement and personal growth of the main character.” —*Booklist*.

The soapy workplace drama of *The Bold Type* meets the unflinching exposé of *Industry*.

The youngest and brightest of the tech world are invited to work for one of the most prestigious companies in Silicon Valley, but when they discover that only a precious few will be offered full-time jobs, reckless ambition and cut-throat competition eclipse their burgeoning friendships and romances.

Beekor Industries is the biggest tech company in the world. They have transformed the way society interacts with hologram technology, from mobile phones to public transportation to smart apparel. Every developer, coder, hacker, software architect, and engineer dreams of counting themselves among the geniuses at Beekor.

Small-town twenty-one-year-old Camila Diaz has always dreamed of working in the tech world, but never even imagined she'd walk the hallowed halls of Beekor Industries, let alone be in the running to join the company she's idolized her entire life. When she's accepted to Beekor's renowned Accelerator Program as a page, Cam knows everything is on the line. The six-month program brings recent college grads to the Beekor campus to live and work for the esteemed company in the hope of earning a coveted job offer.

Upon arrival at Beekor, reality quickly settles in as Cam discovers that the four other pages she is competing against—and living with—are each more impressive than the next. The well-connected and effervescent Avery, the chic and brilliant Sofia, the thoughtful and gifted James, and the enigmatic and way-too-charming Marcus make up this year's page class and prove to be formidable opponents. Driven by stiff competition and the chance for a life in Silicon Valley, they'll soon learn that they need each other more than they know, finding friendship—as well as a little romance—along the way.

THE GOOD WOMAN'S GUIDE TO MAKING BETTER CHOICES

Liz Foster

Affirm Press (Australia), January 2024

How well do you ever really know your husband? And how did Libby – a thoroughly decent straight arrow who's never even had a speeding ticket – end up with Ludo?

Loyal country girl Libby Popovic lives a golden life with her confident financier husband Ludo and their two children, Harrison and Ana. When Ludo is jailed for financial fraud, and her friends and family lose tens of thousands of dollars as a result, Libby feels agonizingly complicit for hosting the final investor pitch in their home. Matters go from atrocious to worse when her possessions and home are repossessed, Libby is sacked and a priceless family heirloom is wrecked. While camping out at the rural goat farm where she was raised, she's forced to re-evaluate her life choices.

A warm, funny and outrageously unfair novel about deception, financial fraud and goat cheese, and the possibility of starting your life all over again when everything goes south of the border.

MAX

Avi Duckor-Jones

Affirm Press (Australia), June 2024

It was a loneliness I often felt. To be physically present and part of something, but elsewhere in my mind, silently seeking other lives I should be living instead.

Max is about to finish high school. On paper he has everything – the girlfriend, the grades, the class- clown best friend, the loving family – but under the surface he is floundering. Grappling with questions about his birth parents and his sexuality, he feels that there is a seed of badness deep within him that will inevitably be exposed. After an incident at the end-of-year party sets Max's world to crumbling, he must finally figure out who he is and where he came from – and who he is allowed to love. Max is a beautiful coming-of-age novel from an exciting new voice in New Zealand fiction.

ON EARTH AS IT IS ON TELEVISION

Emily Jane

Hyperion Avenue, June 2023, paperback May 2024

“As the title suggests, the novel comments on how people process their lives through mass media... Jane’s energetic and contemporary debut will appeal to fans of family-focused sci-fi like Mike Chen’s *Light Years from Home*.” —*Library Journal*

“A compelling plot with some quirky features makes this book a great entry for a new SF reader.— *Booklist*

“Heartfelt, witty, and secretly romantic, *On Earth as It Is on Television* is a delightful and poignant story about what it is to be human and what we owe each other.”

—**Christina Lauren**, *New York Times* bestselling author of *Something Wilder*

First Contact stories have never been as intoxicating and fun as in Emily Jane’s debut novel of the sudden arrival—and equally sudden departure—of spaceships above Earth.

The arrival of spaceships can bring up a lot of big questions:

What does it mean that we’re not alone? Why did aliens come here?

Who knew beforehand? Where.... are the *aliens going*?

Wait... They can’t just leave! Without inviting us into their galactic federation—or at the very least obliterating us!

In Emily Jane’s debut—a rollicking paean to what it means to be alive in the twenty-first century—the fleeting presence of alien vessels, and the certainty that humans are not alone in the universe, sparks intense *uncertainty* as to our place within it.

Blaine has always been content to go along with whatever his supermom wife and television-addicted, half-feral children want. But when the kids blithely ponder skinning people to see if they’re aliens, and his wife announces a surprise road trip to Disney World, even steady Blaine begins to crack.

Half a continent away, Heather, bored in a Malibu pool while the ships hover overhead, watches as the Arrival heralds the demise of her dead-end relationship and sets her on a quest to understand herself, her accomplished (and *oh-so-annoying*) stepfamily, and why she feels so alone in a universe teeming with life.

And Oliver, suddenly conscious and alert after twenty catatonic years, struggles to piece together broken memories and understand why he’s following a strange cat on a westward journey and into the greatest adventure of his—or anyone’s—lifetime.
